(c) Beas and Moskva
(d) Barak and Moskva

80. Through which of the following states does the Tropic of Cancer (23°30' N) NOT pass in India? [Subj Q.14 | UPSC CDS Official Examination Archive]

(a) Rajasthan
(b) Chhattisgarh
(c) Odisha
(d) Tripura

81. What is the name of the strait where 'Adams' bridge' is situated ? [Subj Q.15 | UPSC CDS Exam Archive [Page 62]]

(a) Bering Strait
(b) Cook NStrait
(c) Palk Strait
(d) Taiwan Strait

82. What is the primary characteristic geological feature of the Narmada River Valley? [Subj Q.16 | UPSC CDS Official Examination Archive]

(a) A glacial trough
(b) A rift valley (graben)
(c) A synclinal depression
(d) A volcanic caldera

83. What was the major international consequence of the Suez Crisis of 1956 following Egypt's nationalization of the canal? [Subj Q.17 | UPSC CDS Official Examination Archive]

(a) Demonstration of the end of Great Britain and France as dominant imperial superpowers
(b) Dissolution of the United Nations Security Council
(c) Creation of the North Atlantic Treaty Organization (NATO)
(d) Direct military annexation of the Sinai Peninsula by France

84. Which among the following regions of India is officially designated as a Global Biodiversity Hotspot? [Subj Q.18 | UPSC CDS Official Examination Archive]

(a) Western Ghats
(b) Aravalli Range
(c) Thar Desert
(d) Chota Nagpur Plateau

- SPACE FOR ROUGH WORK -

85. Which is the correct arrangement of the following peninsular rivers of India when arranged from North to South? [Subj Q.19 | UPSC CDS Official Examination Archive]

(a) Mahanadi - Godavari - Krishna - Cauvery
(b) Godavari - Mahanadi - Krishna - Cauvery
(c) Mahanadi - Krishna - Godavari - Cauvery
(d) Godavari - Krishna - Mahanadi - Cauvery

86. Which mountain hill range forms the natural physical boundary separating the state of Manipur from the state of Nagaland? [Subj Q.20 | UPSC CDS Official Examination Archive]

(a) Barail Range
(b) Patkai Bum
(c) Mizo Hills
(d) Garo Hills

87. Which of the following river basins is known as the 'Sorrow of Bengal'? [Subj Q.21 | UPSC CDS (I) 2023]

(a) Damodar River
(b) Kosi River
(c) Hooghly River
(d) Teesta River

88. Which of the following chemical substances dissolves in water with a vigorous evolution of heat (strongly exothermic reaction)? [Subj Q.22 | UPSC CDS Official Examination Archive]

(a) Calcium oxide (Quicklime, CaO)
(b) Potassium nitrate (KNO3)
(c) Glucose (C6H12O6)
(d) Urea (NH2CONH2)

89. Which one among the following animal tissués transports hormones and heat and maintains water balance ? [Subj Q.23 | UPSC CDS Exam Archive [Page 152]]

(a) Connective tissue
(b) Muscular tissue
(c) Blood
(d) Nervous tissue

90. Which one among the following is the geological origin of the Comoros archipelago situated in the northern Mozambique Channel of the Indian Ocean? [Subj Q.24 | UPSC CDS Official Examination Archive]

(a) Volcanic islands
(b) Coral atolls exclusively
(c) Continental fragments
(d) Glacial moraines

91. Which one among the following was the nationwide anti-corruption citizen movement launched in 2011 advocating the enactment of the Jan Lokpal Bill? [Subj Q.25 | UPSC CDS Official Examination Archive]

(a) India Against Corruption (IAC)
(b) Narmada Bachao Andolan
(c) Chipko Movement
(d) Total Revolution (Sampoorna Kranti)

92. Which one among the following is the purest natural source of fresh water in the earth's hydrological cycle before touching ground pollutants? [Subj Q.26 | UPSC CDS Official Examination Archive]

(a) Rain water
(b) Ground water
(c) River water
(d) Pond water

93. Which one of the following is the oldest mountain range in India? [Subj Q.27 | UPSC CDS (I) 2024]

(a) Himalayas
(b) Aravalli Range
(c) Western Ghats
(d) Vindhya Range

94. Which one of the following ocean currents is a cold current [Subj Q.28 | UPSC CDS (I) 2022]

(a) Gulf Stream
(b) Benguela Current
(c) Kuroshio Current
(d) Brazil Current

95. Which one of the following inland lakes in India has the highest water salinity? [Subj Q.29 | UPSC CDS Official Examination Archive]

(a) Dal Lake
(b) Chilika Lake
(c) Wular Lake
(d) Sambhar Salt Lake

96. Which one of the following States of India is the largest producer of lignite coal? [Subj Q.30 | UPSC CDS Exam Archive [Page 4]]

(a) Maharashtra
(b) Gujarat
(c) Madhya Pradesh
(d) Tamil Nadu

97. Which one of the following countries is located entirely south of the Equator? [Subj Q.31 | UPSC CDS Official Examination Archive]

(a) Colombia
(b) Indonesia
(c) Kenya
(d) Australia

98. Which one of the following trains/ railways passes through Germany, France, Austria, Hungary and Romania? [Subj Q.32 | UPSC CDS Exam Archive [Page 116]]

(a) Trans-Siberian
(b) Cape-Cairo
(c) Orient Express
(d) Union and Central Pacific

- SPACE FOR ROUGH WORK -

99. Which one of the following is the correct sequence of the topographical features of a river from its upper course to its lower course? [Subj Q.33 | UPSC CDS Official Examination Archive]

(a) Rapids - Ox-bow lake - Estuary
(b) Ox-bow lake - Rapids - Estuary
(c) Estuary - Ox-bow lake - Rapids
(d) Rapids - Estuary - Ox-bow lake

100. Which one of the following glycopeptide antibiotics is commonly reserved in clinical practice as the 'drug of last resort' against severe multi-drug resistant Gram-positive infections (such as MRSA)? [Subj Q.34 | UPSC CDS Official Examination Archive]

(a) Penicillin G
(b) Tetracycline
(c) Vancomycin
(d) Ampicillin

101. Which one of the following ocean tides is produced when the Sun, the Moon, and the Earth are aligned in a straight line (syzygy)? [Subj Q.35 | UPSC CDS Official Examination Archive]

(a) Spring Tide
(b) Neap Tide
(c) Diurnal Tide
(d) Equinoctial Tide

102. Which one of the following Indian states has the longest coastline among all peninsular states of mainland India? [Subj Q.36 | UPSC CDS Official Examination Archive]

(a) Gujarat
(b) Andhra Pradesh
(c) Tamil Nadu
(d) Maharashtra

103. Which one of the following is a cold ocean current flowing equatorward along the southwestern coast of the African continent? [Subj Q.37 | UPSC CDS Official Examination Archive]

(a) Benguela Current
(b) Agulhas Current
(c) Mozambique Current
(d) Kuroshio Current

104. Which one of the following global climate types is characterized by mild, wet winters and warm, dry summers, supporting extensive citrus fruit orchards and vineyards? [Subj Q.38 | UPSC CDS Official Examination Archive]

(a) Mediterranean Climate
(b) Tropical Monsoon Climate
(c) Equatorial Rainforest Climate
(d) Steppe Semi-Arid Climate

105. Which one of the following major rivers of India flows westward and empties into the Arabian Sea rather than the Bay of Bengal? [Subj Q.39 | UPSC CDS Official Examination Archive]

(a) Tapti (Tapi)
(b) Mahanadi
(c) Godavari
(d) Cauvery

106. Which type of natural biome is characterized by low temperatures, short growing seasons, permafrost, and dominant vegetation consisting of mosses and lichens? [Subj Q.40 | UPSC CDS Official Examination Archive]

(a) Tundra Biome
(b) Taiga (Boreal Forest) Biome
(c) Temperate Grassland Biome
(d) Savanna Biome

107. Who among the following was the founder of the 'Servants of India Society' in 1905? [Subj Q.41 | UPSC CDS (I) 2024]

(a) Bal Gangadhar Tilak
(b) Gopal Krishna Gokhale
(c) Lala Lajpat Rai
(d) Dadabhai Naoroji

SUBJECT 4 : GENERAL SCIENCE (PHYSICS, CHEMISTRY, BIOLOGY)

Questions 108 to 163 | Total: 56 Questions | Marks: 46.6 (+0.833 / -0.277)

108. A female Anopheles mosquito acts as the biological vector for which one of the following diseases? [Subj Q.1 | UPSC CDS Official Examination Archive]

(a) Malaria
(b) Dengue
(c) Chikungunya
(d) Yellow fever

109. A person suffering from myopia (near-sightedness) is advised to wear lenses of: [Subj Q.2 | UPSC CDS (II) 2024]

(a) Convex lenses
(b) Concave lenses
(c) Bifocal lenses
(d) Cylindrical lenses

110. An object has a mass of 6 kg on the surface of the Earth. When taken to the Moon (where acceleration due to gravity is 1/6th that of Earth), its mass will be: [Subj Q.3 | UPSC CDS Official Examination Archive]

(a) 6 kg
(b) 1 kg
(c) 36 kg
(d) Zero

111. Consider the following statements regarding the Chief of Defence Staff (CDS) of the Indian Armed Forces: 1. The CDS functions as the permanent Chairman of the Chiefs of Staff Committee. 2. The CDS acts as the principal military adviser to the Defence Minister on tri-service matters. Which of the statements given above is/are correct? [Subj Q.4 | UPSC CDS Official Examination Archive]

(a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

- SPACE FOR ROUGH WORK -

112. Down's syndrome, a genetic condition causing developmental and intellectual delays in humans, is caused by which chromosomal abnormality? [Subj Q.5 | UPSC CDS Official Examination Archive]

(a) Trisomy of Chromosome 21
(b) Monosomy of Chromosome X
(c) Trisomy of Chromosome 18
(d) Deletion on Chromosome 5

113. For the same rise in temperature, which of the three states of matter undergoes the greatest volumetric thermal expansion? [Subj Q.6 | UPSC CDS Official Examination Archive]

(a) Gas
(b) Liquid
(c) Solid
(d) All expand equally

114. If excess chemical fertilizer is applied to a potted plant without adding adequate water, the plant wilts and dies because of: [Subj Q.7 | UPSC CDS Official Examination Archive]

(a) Endosmosis
(b) Exosmosis leading to plasmolysis
(c) Stoppage of transpiration
(d) Over-absorption of nitrogen

115. In demographic studies and development economics, the Dependency Ratio of a nation is mathematically defined as: [Subj Q.8 | UPSC CDS Official Examination Archive]

(a) Ratio of dependent population (0-14 and 65+ years) to working-age population (15-64 years)
(b) Ratio of unemployed persons to total employed workforce
(c) Ratio of female population to male population in rural areas
(d) Ratio of elderly population (60+ years) to total registered voters

116. In the human digestive system, the opening of the stomach into the small intestine (duodenum) is regulated by the: [Subj Q.9 | UPSC CDS Official Examination Archive]

(a) Cardiac sphincter
(b) Pyloric sphincter
(c) Ileocecal valve
(d) Anal sphincter

117. In the light of this statement [Subj Q.10 | UPSC CDS Exam Archive [Page 268]]

(a) He
(b) was
(c) the
(d) first

118. Lysosome is formed from which one of the following cell organelles? [Subj Q.11 | UPSC CDS Exam Archive [Page 879]]

(a) Nucleus
(b) Endoplasmic reticulum
(c) Golgi bodies
(d) Ribosomes

119. The International Court of Justice (ICJ), the principal judicial organ of the United Nations based at The Hague, is composed of how many judges elected for a nine-year term? [Subj Q.12 | UPSC CDS Official Examination Archive]

(a) 15 judges
(b) 20 judges
(c) 9 judges
(d) 12 judges

120. The Reserve Bank of India has recently constituted a high-level task force on Public Credit Registry (PCR) to suggest a road map for developing a transparent, comprehensive and near-real-time PCR for India. The task force is headed by [Subj Q.13 | UPSC CDS Exam Archive [Page 891]]

(a) Sekar Kamam
(b) Vishakha Mulye
(c) Sriram Kalyanaraman
(d) Y. M. Deosthalee

121. The fundamental physical law which explains why a heavy steel ship floats on the ocean while a small iron needle sinks is: [Subj Q.14 | UPSC CDS Official Examination Archive]

(a) Archimedes' Principle of Buoyancy
(b) Boyle's Law of Pressure
(c) Pascal's Principle of Hydrostatics
(d) Bernoulli's Theorem of Fluid Dynamics

122. The human body's primary sensory organ responsible for maintaining balance, posture, and equilibrium is located in the: [Subj Q.15 | UPSC CDS Official Examination Archive]

(a) Inner ear (vestibular apparatus)
(b) Middle ear ossicles
(c) Frontal lobe of cerebrum
(d) External auditory canal

123. The kinetic energy of an object is always conserved. [Subj Q.16 | UPSC CDS Exam Archive [Page 877]]

(a) 1, 2 and 3
(b) 2 and 3 only
(c) 1 and 2 only
(d) 1 only

124. The natural plant dye Henna (Lawsone) imparts an orange-red stain to human skin and hair by reacting primarily with: [Subj Q.17 | UPSC CDS Official Examination Archive]

(a) Keratin proteins and amino acids
(b) Subcutaneous adipose lipids
(c) Stratum corneum carbohydrates
(d) Cellular nucleic acids

125. Vitamin A ß-carotene ß-carotene Vitamin A engineered 'Golden in [Subj Q.18 | UPSC CDS Exam Archive [Page 36]]

(a) 1, 2 and 3
(b) 2 only
(c) 1 and 2 only
(d) 1 and 3 only

- SPACE FOR ROUGH WORK -

126. Wavelengths of which of the following colors of the visible light spectrum are maximally absorbed by chlorophyll in green plants for photosynthesis? [Subj Q.19 | UPSC CDS Official Examination Archive]

(a) Red and Blue
(b) Green and Yellow
(c) Orange and Green
(d) Yellow and Violet

127. What is 'heavy water' (D2O) used as in nuclear power reactors? [Subj Q.20 | UPSC CDS Official Examination Archive]

(a) Coolant only
(b) Moderator and coolant
(c) Nuclear fuel
(d) Neutron absorber

128. What is a 'Green Data Centre'? [Subj Q.21 | UPSC CDS Exam Archive [Page 152]]

(a) A data centre created by environmentalists to keep records of clean production technology
(b) A repository for storage and management of data where mechanical, electrical, and computer systems are optimized for maximum energy efficiency and minimal environmental footprint
(c) A data centre for green buildings optimizing power consumption using solar energy
(d) A repository providing information about small industries adopting energy efficiency measures

129. What is that particular tribal group? [Subj Q.22 | UPSC CDS Exam Archive [Page 110]]

(a) Gonds
(b) Bhil
(c) Nagas
(d) Santhals

130. What is the minimum mandate of a democratic government ? [Subj Q.23 | UPSC CDS Exam Archive [Page 166]]

(a) Respond to ongoing priorities in public criticisin and threats to survival by decisive public action
(b) Respond to demands of middle class pressure groups on an urgent basis
(c) Preempt social agitations by enacting sensitive laws
(d) Attend to severity threats that threaten national sovereignty

131. What is the primary chemical compound that constitutes natural pearls and sea shells? [Subj Q.24 | UPSC CDS Official Examination Archive]

(a) Calcium carbonate (Aragonite)
(b) Calcium sulfate
(c) Magnesium silicate
(d) Silicon dioxide

132. Which among the following are the two primary raw materials used in the saponification process to manufacture soap? [Subj Q.25 | UPSC CDS Official Examination Archive]

(a) Fats/Vegetable oils and Caustic soda (Sodium hydroxide)
(b) Hydrocarbons and Sulfuric acid
(c) Starch and Calcium carbonate
(d) Petroleum wax and Potassium chloride

133. Which among the following oils has the maximum protein *content ? [Subj Q.26 | UPSC CDS Exam Archive [Page 68]]

(a) Castor oil
(b) Sunflower oil
(c) Soya bean oil
(d) Safflower oil 24

134. Which cell organelle is famously known as the 'Powerhouse of the Cell' due to ATP production? [Subj Q.27 | UPSC CDS (II) 2023]

(a) Ribosome
(b) Golgi apparatus
(c) Mitochondria
(d) Lysosome

135. Which of the following statements relating to the Non-Aligned Movement (NAM) is/are correct? 1. It was founded to maintain independence from rival Cold War power blocs. 2. Military alliances formed a core component of NAM. Select the correct answer using the code given below: [Subj Q.28 | UPSC CDS Official Examination Archive]

(a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) Neither 1 nor 2

136. Which of the following noble gases is present in the highest abundance by volume in dry atmospheric air? [Subj Q.29 | UPSC CDS Official Examination Archive]

(a) Argon
(b) Helium
(c) Neon
(d) Krypton

137. Which of the following statements regarding the Armed Forces (Special Powers) Act (AFSPA) is not correct? [Subj Q.30 | UPSC CDS Official Examination Archive]

(a) It empowers commissioned officers to fire upon or use force against persons acting in contravention of law in disturbed areas
(b) It provides legal protection from prosecution without prior Central Government sanction
(c) It can be applied automatically by local district magistrates without any disturbed area notification
(d) The Central Government or Governor of a State can declare the whole or part of a state as a disturbed area

138. Which of the following infectious diseases is caused by a protozoan parasite and transmitted by the bite of the sandfly? [Subj Q.31 | UPSC CDS Official Examination Archive]

(a) Kala-azar (Visceral leishmaniasis)
(b) Dengue fever
(c) Yellow fever
(d) Japanese encephalitis

- SPACE FOR ROUGH WORK -

139. Which of the following chemical compounds exhibits electrovalent (ionic) bonding rather than covalent bonding? [Subj Q.32 | UPSC CDS Official Examination Archive]

(a) Calcium chloride (CaCl2)
(b) Methane (CH4)
(c) Carbon tetrachloride (CCl4)
(d) Ammonia (NH3)

140. Which of the following pairs of international judicial or financial organizations and their headquarters is correctly matched? [Subj Q.33 | UPSC CDS Official Examination Archive]

(a) International Court of Justice (ICJ) - The Hague (Netherlands)
(b) International Monetary Fund (IMF) - Geneva (Switzerland)
(c) World Trade Organization (WTO) - Washington, D.C. (USA)
(d) International Criminal Court (ICC) - New York (USA)

141. Which one among the following natural or artificial processes produces light through a chemical reaction (chemiluminescence)? [Subj Q.34 | UPSC CDS Official Examination Archive]

(a) Incandescent electric bulb
(b) Glow of a firefly
(c) Heating of an iron rod
(d) Reflection from the moon

142. Which one among the following substances is lipid-soluble and absorbed directly and rapidly across the epithelial lining of the human stomach into the bloodstream? [Subj Q.35 | UPSC CDS Official Examination Archive]

(a) Alcohol (Ethanol)
(b) Starch and dietary fiber
(c) Complex proteins
(d) Polysaccharides

143. Which one among the following was developed as an indigenous high-performance supercomputer by the Indian Space Research Organisation (ISRO) in 2011? [Subj Q.36 | UPSC CDS Official Examination Archive]

(a) SAGA-220
(b) PARAM Yuva
(c) Aakash-I
(d) Pratyush

144. Which one of the following metals is stored in kerosene oil to prevent it from reacting with atmospheric moisture and oxygen? [Subj Q.37 | UPSC CDS (I) 2024]

(a) Magnesium
(b) Sodium
(c) Aluminium
(d) Calcium

145. Which one of the following gases is responsible for the effervescence observed when baking soda is added to vinegar? [Subj Q.38 | UPSC CDS (II) 2022]

(a) Hydrogen
(b) Carbon dioxide
(c) Oxygen
(d) Nitrogen dioxide

146. Which one of the following elements is essential for the formation of chlorophyll in green plants? [Subj Q.39 | UPSC CDS Exam Archive [Page 875]]

(a) Calcium
(b) Iron
(c) Magnesium
(d) Potassium

147. Which one of the following places of India experiences highest atmospheric pressure during winter? [Subj Q.40 | UPSC CDS Exam Archive [Page 881]]

(a) Jaisalmer
(b) Leh
(c) Chennai
(d) Guwahati

148. Which one of the following is an object with such a strong gravitational field that even light cannot escape from its surface? [Subj Q.41 | UPSC CDS Exam Archive [Page 30]]

(a) Neutron star
(b) White dwarf
(c) Black hole
(d) Supernova star

149. Which one of the following human diseases is caused by a protozoan parasite and NOT by bacteria or viruses? [Subj Q.42 | UPSC CDS Official Examination Archive]

(a) Malaria
(b) Tetanus
(c) Measles
(d) Mumps

150. Which one of the following is India's indigenously designed and built single-engine supersonic Light Combat Aircraft (LCA)? [Subj Q.43 | UPSC CDS Official Examination Archive]

(a) Tejas
(b) Su-30MKI
(c) Mirage 2000
(d) Rafale

151. Which one of the following metals cannot be used as a sacrificial anode ? [Subj Q.44 | UPSC CDS Exam Archive [Page 282]]

(a) Tin
(b) Zinc
(c) Magnesium
(d) Aluminium

- SPACE FOR ROUGH WORK -

152. Which one of the following chemical compounds is widely used as a mordant in the textile dyeing and leather tanning industries? [Subj Q.45 | UPSC CDS Official Examination Archive]

(a) Potassium alum (Potash alum)
(b) Bleaching powder
(c) Sodium bicarbonate
(d) Copper sulphate

153. Which one of the following pairs of Indian military training academies and their locations is correctly matched? [Subj Q.46 | UPSC CDS Official Examination Archive]

(a) National Defence Academy (NDA) - Khadakwasla (Pune)
(b) Indian Military Academy (IMA) - Chennai
(c) Officers Training Academy (OTA) - Dehradun
(d) Indian Naval Academy (INA) - Hyderabad

154. Which one of the following deficiencies is most frequently responsible for anemia in India ? [Subj Q.47 | UPSC CDS Exam Archive [Page 70]]

(a) Calcium
(b) Iron
(c) Iodine
(d) Zinc Primary source of vitamin D for human beings is

155. Which one of the following viral diseases is transmitted to humans by the bite of the female Aedes aegypti mosquito? [Subj Q.48 | UPSC CDS Official Examination Archive]

(a) Dengue fever
(b) Kala-azar
(c) Malaria
(d) Sleeping sickness

156. Which one of the following alloys is commonly used for making heating elements in electrical appliances like heaters and electric irons? [Subj Q.49 | UPSC CDS Official Examination Archive]

(a) Nichrome
(b) Tungsten
(c) Copper
(d) German Silver

157. Which one of the following synthetic chemical compounds is widely used by farmers as a selective systemic herbicide to destroy broadleaf weeds in cereal crops? [Subj Q.50 | UPSC CDS Official Examination Archive]

(a) 2,4-D (2,4-Dichlorophenoxyacetic acid)
(b) DDT
(c) BHC (Gammaxene)
(d) Malathion

158. Which one of the following parameters will remain constant during the fall ? [Subj Q.51 | UPSC CDS Exam Archive [Page 158]]

(a) The athlete's *linear momentum
(b) The athlete's moment of inertia
(c) The athlete's kinetic energy
(d) The athlete's angular momentum

159. Which one of the following physical properties decreases systematically as one moves from left to right across a period in the Periodic Table? [Subj Q.52 | UPSC CDS Official Examination Archive]

(a) Atomic radius
(b) Electronegativity
(c) Ionization energy
(d) Non-metallic character

160. Which of the following statements about the commonly used automobile battery are true? 1. It is usually a lead-acid battery. 2. It has six cells with a potential of 2 Volt each. 3. Its cells work as Galvanic Cells while discharging power. 4. Its cells work as electrolytic cells while recharging. Select the correct answer using the code given below : [Subj Q.53 | UPSC CDS Exam Archive [Page 68]]

(a) 1, 2, 3 and 4
(b) 1, 2 and 3 only
(c) 2 and 4 only
(d) 3 and 4 only

161. Which one of the following is responsible for the stimulating effect of tea? [Subj Q.54 | UPSC CDS Exam Archive [Page 72]]

(a) Tannin
(b) Steroid
(c) Alkaloid (Caffeine / Theine)
(d) Flavonoid

162. Which of the following statements about the commonly used automobile battery are true? 1. It is usually a lead-acid battery. 2. It has six cells with a potential of 2 Volt each. 3. Its cells work as Galvanic Cells while discharging power. 4. Its cells work as electrolytic cells while recharging. Select the correct answer using the code given below : [Subj Q.55 | UPSC CDS Exam Archive [Page 893]]

(a) 1, 2, 3 and 4
(b) 1, 2 and 3 only
(c) 2 and 4 only
(d) 3 and 4 only

163. Which one of the following is responsible for the stimulating effect of tea? [Subj Q.56 | UPSC CDS Official Examination Archive]

(a) Tannin
(b) Steroid
(c) Alkaloid (Caffeine / Theine)
(d) Flavonoid

SUBJECT 5 : INDIAN ECONOMY & SOCIAL DEVELOPMENT

Questions 164 to 183 | Total: 20 Questions | Marks: 16.7 (+0.833 / -0.277)

- SPACE FOR ROUGH WORK -

164. Fiscal Deficit in the Union Budget of India is defined as: [Subj Q.1 | UPSC CDS Official Examination Archive]

(a) Total Expenditure minus Total Receipts (excluding borrowings)

(b) Revenue Deficit minus Capital Expenditure

(c) Total Expenditure minus Tax Revenue only

(d) Monetary deficit financed by RBI loans

165. In which year did the Constituent Assembly of Nepal formally declare the country a Federal Democratic Republic, thereby ending the 240-year-old Shah monarchy? [Subj Q.2 | UPSC CDS Official Examination Archive]

(a) 2006 **(b)** 2008

(c) 2012 **(d)** 2015

166. Primary Deficit in public finance is mathematically computed by deducting which one of the following from the Fiscal Deficit? [Subj Q.3 | UPSC CDS Official Examination Archive]

(a) Interest payments on previous debts **(b)** Subsidies on food and fertilizers

(c) Capital expenditure on defense **(d)** Disinvestment receipts

167. Special Drawing Rights (SDRs), also known as 'paper gold', are supplementary foreign exchange reserve assets created by: [Subj Q.4 | UPSC CDS Official Examination Archive]

(a) International Monetary Fund (IMF) **(b)** World Bank

(c) Bank for International Settlements (BIS) **(d)** World Trade Organization (WTO)

168. The Goods and Services Tax (GST) was introduced in India through which Constitutional Amendment Act? [Subj Q.5 | UPSC CDS Official Examination Archive]

(a) 101st Constitutional Amendment Act, 2016 **(b)** 100th Constitutional Amendment Act, 2015

(c) 102nd Constitutional Amendment Act, 2018 **(d)** 103rd Constitutional Amendment Act, 2019

169. The Lorenz Curve in economics is a graphical representation used to measure: [Subj Q.6 | UPSC CDS Official Examination Archive]

(a) Income inequality and wealth distribution in a population

(b) Relationship between inflation and unemployment

(c) Relationship between tax rate and tax revenue

(d) Consumer price index variation over time

170. The Phillips Curve in macroeconomic theory illustrates an inverse relationship between: [Subj Q.7 | UPSC CDS Official Examination Archive]

(a) Rate of inflation and rate of unemployment **(b)** Interest rate and investment expenditure

(c) Tax rates and total tax revenue collection **(d)** Income level and demand for inferior goods

171. The above statements are true of [Subj Q.8 | UPSC CDS Exam Archive [Page 168]]

(a) Kepler's second law **(b)** Newton's second law Of motion

(c) Ohm's law **(d)** Newton's law of gravitation

172. The concept of 'Gross National Happiness' (GNH) as a measure of national development progress was first introduced by which country? [Subj Q.9 | UPSC CDS Official Examination Archive]

(a) Bhutan **(b)** Nepal

(c) Norway **(d)** Switzerland

173. The difference between total revenue expenditure and total revenue receipts of the government in a financial year is called: [Subj Q.10 | UPSC CDS Official Examination Archive]

(a) Revenue Deficit **(b)** Fiscal Deficit

(c) Primary Deficit **(d)** Monetized Deficit

174. Under Section 8(1) of the Right to Information (RTI) Act, 2005, which of the following categories of information is exempt from public disclosure? [Subj Q.11 | UPSC CDS Official Examination Archive]

(a) Information disclosure of which would prejudicially affect the sovereignty and security of India

(b) Information older than five years concerning municipal taxes

(c) Information relating to rural development expenditure

(d) Minutes of public university senate meetings

175. What was the target deadline year set by the United Nations for achieving the eight Millennium Development Goals (MDGs) adopted in the year 2000? [Subj Q.12 | UPSC CDS Official Examination Archive]

PART II : DETAILED SUBJECT-WISE EXPLANATIONS & RATIONALES

SUBJECT 1 : INDIAN POLITY & CONSTITUTION (Q.1 - Q.36)

Q.1. (Indian Polity & Constitution #1) Correct Response: (B)
Question Reference: According to the Election Commission of India, in order to be recognized as a 'National Party', a political party must be treated ...
Solution & Rationale: Official UPSC CDS Solution: Assessed under Indian Polity & Constitution according to UPSC CDS standards.

Q.2. (Indian Polity & Constitution #2) Correct Response: (C)
Question Reference: By which one of the following, an old written material which cannot be read easily, can be read?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Indian Polity & Constitution).

Q.3. (Indian Polity & Constitution #3) Correct Response: (A)
Question Reference: Consider the following statements regarding the writ of 'Quo-Warranto':
Solution & Rationale: Statement 1 is correct: Quo-Warranto is issued by the High Court or Supreme Court to inquire into the legality of a claim by a person to a public office. Statement 2 is incorrect: Unlike habeas corpus or certiorari, any public-spirited citizen can move the court for Quo-Warranto; the petitioner need not be an aggrieved person.

Q.4. (Indian Polity & Constitution #4) Correct Response: (B)
Question Reference: According to the Constitution (Fifty-Second Amendment) Act 1985 as amended in 2003, a legislator attracts disqualification under t...
Solution & Rationale: Under the Tenth Schedule (Anti-Defection Law), a member is disqualified if they voluntarily give up party membership, vote contrary to party whip without prior permission, or if an independent member joins any political party. The 91st Amendment (2003) deleted the exemption for 1/3rd split, requiring at least 2/3rd for merger.

Q.5. (Indian Polity & Constitution #5) Correct Response: (A)
Question Reference: For which one of the following landmark judgments of the Supreme Court of India is the Kesavananda Bharati case (1973) famous?
Solution & Rationale: In Kesavananda Bharati v. State of Kerala (1973), a 13-judge bench of the Supreme Court ruled by a 7:6 majority that Parliament has broad powers to amend the Constitution under Article 368, but cannot alter its 'Basic Structure'.

Q.6. (Indian Polity & Constitution #6) Correct Response: (A)
Question Reference: In Indian constitutional history, what was the 'Privy Purse' that was abolished by the 26th Constitutional Amendment Act, 1971?
Solution & Rationale: Privy Purse was a payment made to the royal families of erstwhile princely states as part of their agreements to integrate into the Union of India in 1947. It was abolished in 1971 by the 26th Amendment Act under Indira Gandhi.

Q.7. (Indian Polity & Constitution #7) Correct Response: (A)
Question Reference: In democratic political theory and constitutional design, why is power sharing considered desirable in diverse societies?
Solution & Rationale: Power sharing accommodates social diversity, prevents majoritarian domination, and fosters political stability by giving all communities a stake in governance.

Q.8. (Indian Polity & Constitution #8) Correct Response: (A)
Question Reference: In sociology and developmental psychology, which of the following is considered the primary and earliest agency of socialization f...
Solution & Rationale: The family is the primary agency of socialization where a child first acquires language, behavioral norms, emotional attachments, and cultural values.

Q.9. (Indian Polity & Constitution #9) Correct Response: (A)
Question Reference: In which of the following years were the Fundamental Duties incorporated into the Constitution of India?
Solution & Rationale: Fundamental Duties were incorporated into Part IV-A (Article 51A) of the Constitution by the 42nd Constitutional Amendment Act, 1976, on the recommendations of the Swaran Singh Committee.

Q.10. (Indian Polity & Constitution #10) Correct Response: (B)
Question Reference: The Directive Principles of State Policy
Solution & Rationale: The Directive Principles of State Policy (Part IV, Articles 36-51) were borrowed from the Irish Constitution (which had copied them from the Spanish Constitution).

Q.11. (Indian Polity & Constitution #11) Correct Response: (B)
Question Reference: The Joint Sitting of both Houses of Parliament is summoned by the President under Article
Solution & Rationale: The Speaker of Lok Sabha presides over a joint sitting of both Houses of Parliament (Article 118(4)). In the Speaker's absence, the Deputy Speaker presides; in their absence, the Deputy Chairman of Rajya Sabha presides.

Q.12. (Indian Polity & Constitution #12) Correct Response: (A)
Question Reference: The Second Backward Classes Commission, popularly known as the Mandal Commission, submitted its report recommending 27% reservatio...
Solution & Rationale: Appointed in 1979 by the Morarji Desai government under B.P. Mandal, the Commission submitted its report in December 1980. It was implemented in 1990 under Prime Minister V.P. Singh.

Q.13. (Indian Polity & Constitution #13) Correct Response: (A)
Question Reference: The historic 'Panchsheel' (Five Principles of Peaceful Coexistence) was formally enunciated in 1954 in an agreement between India ...
Solution & Rationale: Panchsheel was signed on 29 April 1954 in Beijing in the preamble to the Agreement on Trade and Intercourse between Tibet Region of China and India by Premier Zhou Enlai and Prime Minister Nehru.

Q.14. (Indian Polity & Constitution #14) Correct Response: (C)
Question Reference: Under Article 368 of the Constitution of India, a Constitutional Amendment Bill can be introduced in:
Solution & Rationale: A Constitutional Amendment Bill can be initiated in either House of Parliament (Lok Sabha or Rajya Sabha) and not in state legislatures. It does not require prior recommendation of the President.

Q.15. (Indian Polity & Constitution #15) Correct Response: (C)
Question Reference: Under the provisions of the Citizenship Act, 1955, through which of the following methods can a person acquire Indian citizenship?...
Solution & Rationale: The Citizenship Act, 1955 prescribes five ways of acquiring citizenship: birth, descent, registration, naturalization, and incorporation of territory.

Q.16. (Indian Polity & Constitution #16) Correct Response: (C)
Question Reference: What does the author mean by "authen- tic' civil society" ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.17. (Indian Polity & Constitution #17) Correct Response: (A)
Question Reference: What is a 'Concordat' in international diplomacy and legal history?
Solution & Rationale: A Concordat is an official bilateral convention or agreement concluded between the Pope (Holy See) and the secular government of a sovereign state.

Q.18. (Indian Polity & Constitution #18) Correct Response: (A)
Question Reference: Which Article of the Constitution of India provides that the law declared by the Supreme Court shall be binding on all courts with...
Solution & Rationale: Article 141 of the Constitution provides that the law declared by the Supreme Court shall be binding on all courts within the territory of India. Article 142 relates to complete justice enforcement.

Q.19. (Indian Polity & Constitution #19) Correct Response: (B)
Question Reference: Which Constitutional Amendment Act substituted the word 'Armed Rebellion' for 'Internal Disturbance' in Article 352 (National Emer...
Solution & Rationale: The 44th Constitutional Amendment Act, 1978 substituted 'armed rebellion' for the vaguer phrase 'internal disturbance' to prevent arbitrary imposition of National Emergency.

Q.20. (Indian Polity & Constitution #20) Correct Response: (B)
Question Reference: Which of the following Fundamental Rights is/are available to both Indian citizens and foreigners (except enemy aliens)?
Solution & Rationale: Articles 15, 16, 19, 29, and 30 are available ONLY to Indian citizens. Articles 14, 20, 21, 21A, 22, 23, 24, 25, 26, 27, and 28 are available to both citizens and foreigners.

Q.21. (Indian Polity & Constitution #21) Correct Response: (D)
Question Reference: Which of the following constitutional provisions require ratification by legislatures of not less than half of the States under Ar...
Solution & Rationale: Under the proviso to Article 368(2), federal provisions including presidential elections (Arts 54, 55), executive power extents (Arts 73, 162), Supreme Court/High Courts, Seventh Schedule lists, and Article 368 itself require ratification by at least half of the state legislatures.

Q.22. (Indian Polity & Constitution #22) Correct Response: (B)
Question Reference: Which of the following Writs literally means 'We Command' and is issued to enforce the performance of a mandatory public duty?
Solution & Rationale: Mandamus literally translates to 'We Command'. It is an order issued by the Supreme Court (Art 32) or High Court (Art 226) to any public authority or inferior tribunal commanding them to perform an obligatory public duty.

Q.23. (Indian Polity & Constitution #23) Correct Response: (B)
Question Reference: Which of the following authorities is vested with the power to alter the boundaries or name of any State in India?
Solution & Rationale: Under Article 3 of the Constitution, Parliament may by law form a new State or alter the area, boundaries or name of any State by a simple majority.

Q.24. (Indian Polity & Constitution #24) Correct Response: (A)
Question Reference: Which one among the following is the primary constitutional function of the Pro-Tem Speaker of the Lok Sabha?
Solution & Rationale: The Pro-Tem Speaker is appointed by the President (typically the senior-most member) to preside over the initial sitting of the newly constituted Lok Sabha, administer oath/affirmation to new MPs, and conduct the election of the permanent Speaker.

Q.25. (Indian Polity & Constitution #25) Correct Response: (A)
Question Reference: Which one among the following is explicitly listed as a Fundamental Duty of citizens under Article 51A of the Constitution of Indi...
Solution & Rationale: Article 51A(d) specifies: 'to defend the country and render national service when called upon to do so'. Voting, paying taxes, and family planning were recommended by the Swaran Singh Committee but not included in Article 51A.

Q.26. (Indian Polity & Constitution #26) Correct Response: (C)
Question Reference: Which one among the following pairs of level of government and legislative power is not correctly matched ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.27. (Indian Polity & Constitution #27) Correct Response: (B)
Question Reference: Which one among the following statements regarding the erstwhile Planning Commission of India is NOT correct?
Solution & Rationale: The Planning Commission was neither a constitutional body nor a statutory body; it was an extra-constitutional body created by an executive resolution of the Government of India in March 1950.

Q.28. (Indian Polity & Constitution #28) Correct Response: (B)
Question Reference: Which one of the following Indian States has the highest percentage of Scheduled Tribe population to its total population?
Solution & Rationale: Official UPSC CDS Solution: Assessed under Indian Polity & Constitution according to UPSC CDS standards.

Q.29. (Indian Polity & Constitution #29) Correct Response: (B)
Question Reference: Which one of the following Constitutional Amendments deleted the Right to Property from the list of Fundamental Rights?
Solution & Rationale: The 44th Constitutional Amendment Act, 1978 abolished the Right to Property as a Fundamental Right (Article 19(1)(f) and Article 31) and made it a constitutional/legal right under Article 300A in Part XII.

Q.30. (Indian Polity & Constitution #30) Correct Response: (C)
Question Reference: Which one of the following Fundamental Rights under the Constitution of India is also available to non-citizens (foreigners)?
Solution & Rationale: Articles 15, 16, 19, 29, and 30 are available ONLY to Indian citizens. Article 21 (Protection of life and personal liberty) is guaranteed to all persons, both citizens and foreigners.

Solution & Rationale: The 2011 Indian anti-corruption movement, organized primarily under the banner of India Against Corruption (IAC) and spearheaded by Anna Hazare, demanded an independent Lokpal.

Q.92. (Geography (Physical, Indian & World) #26) Correct Response: (A)
Question Reference: Which one among the following is the purest natural source of fresh water in the earth's hydrological cycle before touching ground...
Solution & Rationale: Rainwater is the purest form of natural water as it is produced by the natural evaporation-condensation cycle (distillation process) in the atmosphere.

Q.93. (Geography (Physical, Indian & World) #27) Correct Response: (B)
Question Reference: Which one of the following is the oldest mountain range in India?
Solution & Rationale: The Aravalli Range is one of the oldest fold mountain systems in the world, formed during the Proterozoic eon, now deeply eroded into relict mountains.

Q.94. (Geography (Physical, Indian & World) #28) Correct Response: (B)
Question Reference: Which one of the following ocean currents is a cold current
Solution & Rationale: The Benguela Current is a cold ocean current flowing northward along the southwest coast of Africa in the South Atlantic Ocean. Gulf Stream and Brazil Current are warm Atlantic currents; Kuroshio is in the Pacific.

Q.95. (Geography (Physical, Indian & World) #29) Correct Response: (D)
Question Reference: Which one of the following inland lakes in India has the highest water salinity?
Solution & Rationale: Sambhar Salt Lake in Rajasthan is India's largest inland salt lake and has the highest salinity among Indian inland lakes.

Q.96. (Geography (Physical, Indian & World) #30) Correct Response: (C)
Question Reference: Which one of the following States of India is the largest producer of lignite coal?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Geography (Physical, Indian & World)).

Q.97. (Geography (Physical, Indian & World) #31) Correct Response: (D)
Question Reference: Which one of the following countries is located entirely south of the Equator?
Solution & Rationale: Australia lies entirely in the Southern Hemisphere, well south of the Equator (latitudes 10°S to 43°S). Colombia, Indonesia, and Kenya are all crossed directly by the Equator.

Q.98. (Geography (Physical, Indian & World) #32) Correct Response: (C)
Question Reference: Which one of the following trains/ railways passes through Germany, France, Austria, Hungary and Romania?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Geography (Physical, Indian & World)).

Q.99. (Geography (Physical, Indian & World) #33) Correct Response: (A)
Question Reference: Which one of the following is the correct sequence of the topographical features of a river from its upper course to its lower cou...
Solution & Rationale: Rapids form in the steep upper (youthful) course; meanders and ox-bow lakes form on the flat floodplains of the middle/lower course; estuaries or deltas form where the river meets the sea at its mouth.

Q.100. (Geography (Physical, Indian & World) #34) Correct Response: (C)
Question Reference: Which one of the following glycopeptide antibiotics is commonly reserved in clinical practice as the 'drug of last resort' against...
Solution & Rationale: Vancomycin is a powerful glycopeptide antibiotic historically used as a drug of last resort for serious, life-threatening infections caused by Gram-positive bacteria unresponsive to other antibiotics.

Q.101. (Geography (Physical, Indian & World) #35) Correct Response: (A)
Question Reference: Which one of the following ocean tides is produced when the Sun, the Moon, and the Earth are aligned in a straight line (syzygy)?
Solution & Rationale: Spring tides occur twice each month (during new moon and full moon) when gravitational pulls of the Sun and Moon reinforce each other in a straight line, producing the highest high tides.

Q.102. (Geography (Physical, Indian & World) #36) Correct Response: (A)
Question Reference: Which one of the following Indian states has the longest coastline among all peninsular states of mainland India?
Solution & Rationale: Gujarat has the longest mainland coastline in India at approximately 1,600 km, followed by Andhra Pradesh (approx. 974 km).

Q.103. (Geography (Physical, Indian & World) #37) Correct Response: (A)
Question Reference: Which one of the following is a cold ocean current flowing equatorward along the southwestern coast of the African continent?
Solution & Rationale: The Benguela Current is a prominent cold eastern boundary current of the South Atlantic subtropical gyre flowing north along the coast of Namibia and South Africa.

Q.104. (Geography (Physical, Indian & World) #38) Correct Response: (A)
Question Reference: Which one of the following global climate types is characterized by mild, wet winters and warm, dry summers, supporting extensive ...
Solution & Rationale: The Mediterranean climate (Cs in Köppen classification) features dry summers under subtropical high pressure and rainy winters dominated by mid-latitude westerlies, ideal for olives and grapes.

Q.105. (Geography (Physical, Indian & World) #39) Correct Response: (A)
Question Reference: Which one of the following major rivers of India flows westward and empties into the Arabian Sea rather than the Bay of Bengal?
Solution & Rationale: The Narmada and Tapti rivers flow westward through tectonic rift valleys and empty into the Arabian Sea via the Gulf of Khambhat. Mahanadi, Godavari, and Cauvery flow eastward into the Bay of Bengal.

- SPACE FOR ROUGH WORK -

Q.106. (Geography (Physical, Indian & World) #40) Correct Response: (A)
Question Reference: Which type of natural biome is characterized by low temperatures, short growing seasons, permafrost, and dominant vegetation consi...
Solution & Rationale: The Tundra biome is treeless and circumpolar in high northern latitudes. Due to subsoil permafrost and biting winds, only low-lying mosses, lichens, and dwarf shrubs survive.

Q.107. (Geography (Physical, Indian & World) #41) Correct Response: (B)
Question Reference: Who among the following was the founder of the 'Servants of India Society' in 1905?
Solution & Rationale: Gopal Krishna Gokhale founded the Servants of India Society in Pune in 1905 to train national missionaries for the service of India and promote social advancement.

SUBJECT 4 : GENERAL SCIENCE (PHYSICS, CHEMISTRY, BIOLOGY) (Q.108 - Q.163)

Q.108. (General Science (Physics, Chemistry, Biology) #1) Correct Response: (A)
Question Reference: A female Anopheles mosquito acts as the biological vector for which one of the following diseases?
Solution & Rationale: Female Anopheles mosquitoes transmit Plasmodium parasites causing Malaria. Dengue, Chikungunya, and Yellow fever are transmitted by Aedes mosquitoes.

Q.109. (General Science (Physics, Chemistry, Biology) #2) Correct Response: (B)
Question Reference: A person suffering from myopia (near-sightedness) is advised to wear lenses of:
Solution & Rationale: Myopia occurs when the eyeball is too elongated or cornea too curved, causing distant rays to focus in front of the retina. A diverging (concave) lens spreads the incoming rays so the image forms precisely on the retina.

Q.110. (General Science (Physics, Chemistry, Biology) #3) Correct Response: (A)
Question Reference: An object has a mass of 6 kg on the surface of the Earth. When taken to the Moon (where acceleration due to gravity is 1/6th that ...
Solution & Rationale: Mass is an intrinsic property representing the amount of matter in a body and remains constant everywhere (6 kg). Only the weight (W = mg) decreases to 1/6th on the Moon.

Q.111. (General Science (Physics, Chemistry, Biology) #4) Correct Response: (C)
Question Reference: Consider the following statements regarding the Chief of Defence Staff (CDS) of the Indian Armed Forces: 1. The CDS functions as t...
Solution & Rationale: Both statements are correct: The CDS is a 4-star General who heads the Department of Military Affairs (DMA), chairs the Chiefs of Staff Committee, and acts as principal military adviser to the Raksha Mantri.

Q.112. (General Science (Physics, Chemistry, Biology) #5) Correct Response: (A)
Question Reference: Down's syndrome, a genetic condition causing developmental and intellectual delays in humans, is caused by which chromosomal abnor...
Solution & Rationale: Down's syndrome is caused by non-disjunction of chromosome 21 during meiosis, resulting in cells having 47 chromosomes instead of 46 (Trisomy 21).

Q.113. (General Science (Physics, Chemistry, Biology) #6) Correct Response: (A)
Question Reference: For the same rise in temperature, which of the three states of matter undergoes the greatest volumetric thermal expansion?
Solution & Rationale: Gases exhibit the highest coefficient of thermal expansion because intermolecular forces are minimal, allowing particles to move far apart when heated.

Q.114. (General Science (Physics, Chemistry, Biology) #7) Correct Response: (B)
Question Reference: If excess chemical fertilizer is applied to a potted plant without adding adequate water, the plant wilts and dies because of:
Solution & Rationale: High concentration of fertilizer salts creates a hypertonic external solution around the roots. Water is drawn out from plant cells via exosmosis, causing cellular plasmolysis and wilting.

Q.115. (General Science (Physics, Chemistry, Biology) #8) Correct Response: (A)
Question Reference: In demographic studies and development economics, the Dependency Ratio of a nation is mathematically defined as:
Solution & Rationale: The dependency ratio measures the age-population ratio of typically dependent citizens (under 15 and over 64) relative to the productive working-age population.

Q.116. (General Science (Physics, Chemistry, Biology) #9) Correct Response: (B)
Question Reference: In the human digestive system, the opening of the stomach into the small intestine (duodenum) is regulated by the:
Solution & Rationale: The pyloric sphincter is a band of smooth muscle at the junction between the pylorus of the stomach and the duodenum of the small intestine that controls the flow of chyme.

Q.117. (General Science (Physics, Chemistry, Biology) #10) Correct Response: (A)
Question Reference: In the light of this statement
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.118. (General Science (Physics, Chemistry, Biology) #11) Correct Response: (C)
Question Reference: Lysosome is formed from which one of the following cell organelles?
Solution & Rationale: Lysosomes are membrane-bound organelles containing digestive enzymes that are packaged and budded off from the Golgi apparatus/bodies.

Q.119. (General Science (Physics, Chemistry, Biology) #12) Correct Response: (A)
Question Reference: The International Court of Justice (ICJ), the principal judicial organ of the United Nations based at The Hague, is composed of ho...
Solution & Rationale: The ICJ consists of 15 judges elected by the UN General Assembly and Security Council for 9-year terms. Five judges are elected every three years.

- SPACE FOR ROUGH WORK -

Q.120. (General Science (Physics, Chemistry, Biology) #13) Correct Response: (B)
Question Reference: The Reserve Bank of India has recently constituted a high-level task force on Public Credit Registry (PCR) to suggest a road map f...
Solution & Rationale: Official UPSC CDS Solution: Assessed under General Science (Physics, Chemistry, Biology) according to UPSC CDS standards.

Q.121. (General Science (Physics, Chemistry, Biology) #14) Correct Response: (A)
Question Reference: The fundamental physical law which explains why a heavy steel ship floats on the ocean while a small iron needle sinks is:
Solution & Rationale: Archimedes' Principle states that a body immersed in a fluid is buoyed up by a force equal to the weight of fluid displaced. A hollow ship displaces a volume of water whose weight exceeds the ship's total weight.

Q.122. (General Science (Physics, Chemistry, Biology) #15) Correct Response: (A)
Question Reference: The human body's primary sensory organ responsible for maintaining balance, posture, and equilibrium is located in the:
Solution & Rationale: The vestibular apparatus in the inner ear, consisting of the three semicircular canals, utricle, and saccule, detects head motion and gravity to maintain balance and equilibrium.

Q.123. (General Science (Physics, Chemistry, Biology) #16) Correct Response: (B)
Question Reference: The kinetic energy of an object is always conserved.
Solution & Rationale: Official UPSC CDS Solution: Assessed under General Science (Physics, Chemistry, Biology) according to UPSC CDS standards.

Q.124. (General Science (Physics, Chemistry, Biology) #17) Correct Response: (A)
Question Reference: The natural plant dye Henna (Lawsone) imparts an orange-red stain to human skin and hair by reacting primarily with:
Solution & Rationale: The active colorant in henna is lawsone (hennotannic acid), which binds strongly through Michael addition to keratin proteins found in hair, nails, and the epidermis of the skin.

Q.125. (General Science (Physics, Chemistry, Biology) #18) Correct Response: (C)
Question Reference: Vitamin A ß-carotene ß-carotene Vitamin A engineered 'Golden in
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.126. (General Science (Physics, Chemistry, Biology) #19) Correct Response: (A)
Question Reference: Wavelengths of which of the following colors of the visible light spectrum are maximally absorbed by chlorophyll in green plants f...
Solution & Rationale: Chlorophyll a and b show maximum absorption in the blue (430-450 nm) and red (640-660 nm) regions of the visible spectrum, while reflecting green light (giving plants their green appearance).

Q.127. (General Science (Physics, Chemistry, Biology) #20) Correct Response: (B)
Question Reference: What is 'heavy water' (D2O) used as in nuclear power reactors?
Solution & Rationale: Heavy water (deuterium oxide, D2O) contains deuterium atoms and is used primarily as a neutron moderator (slowing down fast neutrons) and as a coolant in Pressurized Heavy Water Reactors (PHWRs).

Q.128. (General Science (Physics, Chemistry, Biology) #21) Correct Response: (B)
Question Reference: What is a 'Green Data Centre'?
Solution & Rationale: A green data centre is an enterprise storage repository where lighting, electrical, cooling, and compute systems are engineered to achieve maximum power usage effectiveness (PUE) and minimal carbon emissions.

Q.129. (General Science (Physics, Chemistry, Biology) #22) Correct Response: (C)
Question Reference: What is that particular tribal group?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.130. (General Science (Physics, Chemistry, Biology) #23) Correct Response: (C)
Question Reference: What is the minimum mandate of a democratic government ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.131. (General Science (Physics, Chemistry, Biology) #24) Correct Response: (A)
Question Reference: What is the primary chemical compound that constitutes natural pearls and sea shells?
Solution & Rationale: Pearls and mollusk shells consist primarily of calcium carbonate (CaCO3, mostly in the form of aragonite crystals) deposited in concentric layers held together by the organic protein conchiolin.

Q.132. (General Science (Physics, Chemistry, Biology) #25) Correct Response: (A)
Question Reference: Which among the following are the two primary raw materials used in the saponification process to manufacture soap?
Solution & Rationale: Soap is produced by saponification, the alkaline hydrolysis of triglycerides (vegetable oils or animal fats) with a strong base such as sodium hydroxide (caustic soda) or potassium hydroxide.

Q.133. (General Science (Physics, Chemistry, Biology) #26) Correct Response: (C)
*Question Reference: Which among the following oils has the maximum protein *content ?*
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.134. (General Science (Physics, Chemistry, Biology) #27) Correct Response: (C)
Question Reference: Which cell organelle is famously known as the 'Powerhouse of the Cell' due to ATP production?
Solution & Rationale: Mitochondria produce adenosine triphosphate (ATP) through cellular respiration and oxidative phosphorylation, thereby serving as the powerhouse of eukaryotic cells. Lysosomes are suicide bags.

Q.135. (General Science (Physics, Chemistry, Biology) #28) Correct Response: (A)
Question Reference: Which of the following statements relating to the Non-Aligned Movement (NAM) is/are correct? 1. It was founded to maintain indepen...
Solution & Rationale: Statement 1 is correct: NAM originated at the 1955 Bandung Conference and 1961 Belgrade Summit. Statement 2 is incorrect: NAM was explicitly non-military and rejected joining Cold War military alliances like NATO or the Warsaw Pact.

- SPACE FOR ROUGH WORK -

Q.136. (General Science (Physics, Chemistry, Biology) #29) Correct Response: (A)
Question Reference: Which of the following noble gases is present in the highest abundance by volume in dry atmospheric air?
Solution & Rationale: Argon is the third most abundant gas in dry air (approx. 0.934% by volume). Other noble gases like Neon (0.0018%), Helium (0.0005%), and Krypton (0.0001%) are trace elements.

Q.137. (General Science (Physics, Chemistry, Biology) #30) Correct Response: (C)
Question Reference: Which of the following statements regarding the Armed Forces (Special Powers) Act (AFSPA) is not correct?
Solution & Rationale: AFSPA cannot be invoked arbitrarily by district magistrates; an area must be formally declared a 'disturbed area' by the Central Government, Governor, or UT Administrator under Section 3 of the Act.

Q.138. (General Science (Physics, Chemistry, Biology) #31) Correct Response: (A)
Question Reference: Which of the following infectious diseases is caused by a protozoan parasite and transmitted by the bite of the sandfly?
Solution & Rationale: Kala-azar (Visceral leishmaniasis) is caused by the protozoan parasite Leishmania donovani and transmitted to humans by the bite of infected female phlebotomine sandflies.

Q.139. (General Science (Physics, Chemistry, Biology) #32) Correct Response: (A)
Question Reference: Which of the following chemical compounds exhibits electrovalent (ionic) bonding rather than covalent bonding?
Solution & Rationale: Calcium chloride (CaCl2) is an ionic compound formed between a metal (calcium) and non-metal (chlorine) by complete transfer of electrons. CH4, CCl4, and NH3 are covalent compounds.

Q.140. (General Science (Physics, Chemistry, Biology) #33) Correct Response: (A)
Question Reference: Which of the following pairs of international judicial or financial organizations and their headquarters is correctly matched?
Solution & Rationale: The ICJ is headquartered at the Peace Palace in The Hague, Netherlands. IMF and World Bank are in Washington, D.C.; WTO is in Geneva.

Q.141. (General Science (Physics, Chemistry, Biology) #34) Correct Response: (B)
Question Reference: Which one among the following natural or artificial processes produces light through a chemical reaction (chemiluminescence)?
Solution & Rationale: Fireflies produce light through bioluminescence, a form of chemiluminescence where the pigment luciferin is oxidized in the presence of the enzyme luciferase and ATP without producing heat.

Q.142. (General Science (Physics, Chemistry, Biology) #35) Correct Response: (A)
Question Reference: Which one among the following substances is lipid-soluble and absorbed directly and rapidly across the epithelial lining of the hu...
Solution & Rationale: Unlike most foods which require enzymatic digestion and are absorbed in the small intestine, ethanol is lipid-soluble and can be directly absorbed through the gastric mucosa of the stomach.

Q.143. (General Science (Physics, Chemistry, Biology) #36) Correct Response: (A)
Question Reference: Which one among the following was developed as an indigenous high-performance supercomputer by the Indian Space Research Organisat...
Solution & Rationale: SAGA-220 (Supercomputer for Aerospace with GPU Architecture-220 teraflops) was built by ISRO at the Vikram Sarabhai Space Centre (VSSC) using commercial off-the-shelf GPU hardware.

Q.144. (General Science (Physics, Chemistry, Biology) #37) Correct Response: (B)
Question Reference: Which one of the following metals is stored in kerosene oil to prevent it from reacting with atmospheric moisture and oxygen?
Solution & Rationale: Sodium and potassium are highly reactive alkali metals that react violently and exothermically with water and oxygen at room temperature, releasing combustible hydrogen. They are safely preserved immersed in kerosene.

Q.145. (General Science (Physics, Chemistry, Biology) #38) Correct Response: (B)
Question Reference: Which one of the following gases is responsible for the effervescence observed when baking soda is added to vinegar?
Solution & Rationale: When sodium bicarbonate (baking soda, NaHCO3) reacts with acetic acid (vinegar, CH3COOH), sodium acetate, water, and carbon dioxide (CO2) gas are produced. The rapid release of CO2 produces vigorous effervescence.

Q.146. (General Science (Physics, Chemistry, Biology) #39) Correct Response: (B)
Question Reference: Which one of the following elements is essential for the formation of chlorophyll in green plants?
Solution & Rationale: Official UPSC CDS Solution: Assessed under General Science (Physics, Chemistry, Biology) according to UPSC CDS standards.

Q.147. (General Science (Physics, Chemistry, Biology) #40) Correct Response: (B)
Question Reference: Which one of the following places of India experiences highest atmospheric pressure during winter?
Solution & Rationale: Official UPSC CDS Solution: Assessed under General Science (Physics, Chemistry, Biology) according to UPSC CDS standards.

Q.148. (General Science (Physics, Chemistry, Biology) #41) Correct Response: (C)
Question Reference: Which one of the following is an object with such a strong gravitational field that even light cannot escape from its surface?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.149. (General Science (Physics, Chemistry, Biology) #42) Correct Response: (A)
Question Reference: Which one of the following human diseases is caused by a protozoan parasite and NOT by bacteria or viruses?
Solution & Rationale: Malaria is caused by the protozoan Plasmodium (transmitted by female Anopheles mosquito). Tetanus is bacterial; Measles and Mumps are viral diseases.

Q.150. (General Science (Physics, Chemistry, Biology) #43) Correct Response: (A)
Question Reference: Which one of the following is India's indigenously designed and built single-engine supersonic Light Combat Aircraft (LCA)?
Solution & Rationale: LCA Tejas is an indigenous single-engine, delta-wing multirole light fighter aircraft designed by the Aeronautical Development Agency (ADA) and manufactured by Hindustan Aeronautics Limited (HAL).

- SPACE FOR ROUGH WORK -

Q.151. (General Science (Physics, Chemistry, Biology) #44) **Correct Response: (C)**
Question Reference: Which one of the following metals cannot be used as a sacrificial anode ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (General Science (Physics, Chemistry, Biology)).

Q.152. (General Science (Physics, Chemistry, Biology) #45) **Correct Response: (A)**
Question Reference: Which one of the following chemical compounds is widely used as a mordant in the textile dyeing and leather tanning industries?
Solution & Rationale: Potash alum (potassium aluminum sulfate) acts as a mordant by providing aluminum ions that bind natural dyes to textile fibers, fixing colors permanently.

Q.153. (General Science (Physics, Chemistry, Biology) #46) **Correct Response: (A)**
Question Reference: Which one of the following pairs of Indian military training academies and their locations is correctly matched?
Solution & Rationale: NDA is in Khadakwasla (Pune); IMA is in Dehradun; OTA is in Chennai/Gaya; INA is in Ezhimala (Kerala).

Q.154. (General Science (Physics, Chemistry, Biology) #47) **Correct Response: (C)**
Question Reference: Which one of the following deficiencies is most frequently responsible for anemia in India ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.155. (General Science (Physics, Chemistry, Biology) #48) **Correct Response: (A)**
Question Reference: Which one of the following viral diseases is transmitted to humans by the bite of the female Aedes aegypti mosquito?
Solution & Rationale: Aedes aegypti mosquitoes transmit Dengue, Chikungunya, Zika, and Yellow fever. Malaria is spread by Anopheles, Kala-azar by sandflies, and sleeping sickness by tsetse flies.

Q.156. (General Science (Physics, Chemistry, Biology) #49) **Correct Response: (A)**
Question Reference: Which one of the following alloys is commonly used for making heating elements in electrical appliances like heaters and electric ...
Solution & Rationale: Nichrome (an alloy of 80% nickel and 20% chromium) has high electrical resistivity and a high melting point, and does not easily oxidize at high temperatures.

Q.157. (General Science (Physics, Chemistry, Biology) #50) **Correct Response: (A)**
Question Reference: Which one of the following synthetic chemical compounds is widely used by farmers as a selective systemic herbicide to destroy bro...
Solution & Rationale: 2,4-D is a synthetic auxin herbicide that selectively eliminates dicotyledonous (broadleaf) weeds without harming monocotyledonous grasses (wheat, corn, rice).

Q.158. (General Science (Physics, Chemistry, Biology) #51) **Correct Response: (C)**
Question Reference: Which one of the following parameters will remain constant during the fall ?
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.159. (General Science (Physics, Chemistry, Biology) #52) **Correct Response: (A)**
Question Reference: Which one of the following physical properties decreases systematically as one moves from left to right across a period in the Per...
Solution & Rationale: Atomic radius decreases across a period from left to right due to increased effective nuclear charge pulling valence electrons closer to the nucleus.

Q.160. (General Science (Physics, Chemistry, Biology) #53) **Correct Response: (A)**
Question Reference: Which of the following statements about the commonly used automobile battery are true? 1. It is usually a lead-acid battery. 2. It...
Solution & Rationale: A standard 12V car battery consists of six 2V lead-acid cells connected in series. When delivering current it operates as a galvanic cell (chemical to electrical); when being recharged by the alternator it operates as an electrolytic cell.

Q.161. (General Science (Physics, Chemistry, Biology) #54) **Correct Response: (C)**
Question Reference: Which one of the following is responsible for the stimulating effect of tea?
Solution & Rationale: The stimulating effect of tea is primarily due to the purine alkaloid caffeine (also known as theine), which acts as a central nervous system stimulant.

Q.162. (General Science (Physics, Chemistry, Biology) #55) **Correct Response: (A)**
Question Reference: Which of the following statements about the commonly used automobile battery are true? 1. It is usually a lead-acid battery. 2. It...
Solution & Rationale: A standard 12V car battery consists of six 2V lead-acid cells connected in series. When delivering current it operates as a galvanic cell (chemical to electrical); when being recharged by the alternator it operates as an electrolytic cell.

Q.163. (General Science (Physics, Chemistry, Biology) #56) **Correct Response: (C)**
Question Reference: Which one of the following is responsible for the stimulating effect of tea?
Solution & Rationale: The stimulating effect of tea is primarily due to the purine alkaloid caffeine (also known as theine), which acts as a central nervous system stimulant.

SUBJECT 5 : INDIAN ECONOMY & SOCIAL DEVELOPMENT (Q.164 - Q.183)

Q.164. (Indian Economy & Social Development #1) **Correct Response: (A)**
Question Reference: Fiscal Deficit in the Union Budget of India is defined as:
Solution & Rationale: Fiscal Deficit = Total Budget Expenditure - Total Receipts excluding borrowings. It represents the total borrowing requirements of the government from all sources.

Q.165. (Indian Economy & Social Development #2) **Correct Response: (B)**
Question Reference: In which year did the Constituent Assembly of Nepal formally declare the country a Federal Democratic Republic, thereby ending the...
Solution & Rationale: On 28 May 2008, the newly elected Constituent Assembly of Nepal voted overwhelmingly to abolish the monarchy and declare Nepal a Federal Democratic Republic.

- SPACE FOR ROUGH WORK -

Q.166. (Indian Economy & Social Development #3) Correct Response: (A)
Question Reference: Primary Deficit in public finance is mathematically computed by deducting which one of the following from the Fiscal Deficit?
Solution & Rationale: Primary Deficit = Fiscal Deficit - Interest Payments. It indicates government borrowing requirements strictly to finance ongoing fiscal policies excluding past debt obligations.

Q.167. (Indian Economy & Social Development #4) Correct Response: (A)
Question Reference: Special Drawing Rights (SDRs), also known as 'paper gold', are supplementary foreign exchange reserve assets created by:
Solution & Rationale: SDRs were created by the IMF in 1969 to supplement member countries' official reserves. The SDR basket includes the US Dollar, Euro, Chinese Renminbi, Japanese Yen, and British Pound.

Q.168. (Indian Economy & Social Development #5) Correct Response: (A)
Question Reference: The Goods and Services Tax (GST) was introduced in India through which Constitutional Amendment Act?
Solution & Rationale: The 101st Constitutional Amendment Act, 2016 introduced Article 246A and Article 279A, establishing the Goods and Services Tax (GST) regime in India with effect from 1 July 2017.

Q.169. (Indian Economy & Social Development #6) Correct Response: (A)
Question Reference: The Lorenz Curve in economics is a graphical representation used to measure:
Solution & Rationale: The Lorenz Curve plots cumulative percentage of population against cumulative percentage of income earned. The Gini Coefficient is derived directly from the area between the line of equality and the Lorenz Curve.

Q.170. (Indian Economy & Social Development #7) Correct Response: (A)
Question Reference: The Phillips Curve in macroeconomic theory illustrates an inverse relationship between:
Solution & Rationale: The Phillips Curve, formulated by A.W. Phillips in 1958, shows an empirical inverse relationship between the rate of unemployment and the rate of inflation in an economy.

Q.171. (Indian Economy & Social Development #8) Correct Response: (C)
Question Reference: The above statements are true of
Solution & Rationale: Official UPSC CDS Rationale: Tested in CDS General Knowledge (Defence, Military & Current Affairs).

Q.172. (Indian Economy & Social Development #9) Correct Response: (A)
Question Reference: The concept of 'Gross National Happiness' (GNH) as a measure of national development progress was first introduced by which countr...
Solution & Rationale: Gross National Happiness (GNH) was instituted in 1972 by Jigme Singye Wangchuck, the 4th King of Bhutan, measuring social development and environmental conservation alongside economics.

Q.173. (Indian Economy & Social Development #10) Correct Response: (A)
Question Reference: The difference between total revenue expenditure and total revenue receipts of the government in a financial year is called:
Solution & Rationale: Revenue Deficit = Revenue Expenditure - Revenue Receipts. It signifies that the government is borrowing to finance its day-to-day administrative consumption expenditure.

Q.174. (Indian Economy & Social Development #11) Correct Response: (A)
Question Reference: Under Section 8(1) of the Right to Information (RTI) Act, 2005, which of the following categories of information is exempt from pu...
Solution & Rationale: Section 8(1)(a) explicitly exempts information whose disclosure would prejudicially affect the sovereignty and integrity of India, state security, strategy, scientific or economic interests.

Q.175. (Indian Economy & Social Development #12) Correct Response: (A)
Question Reference: What was the target deadline year set by the United Nations for achieving the eight Millennium Development Goals (MDGs) adopted in...
Solution & Rationale: The Millennium Development Goals (MDGs) established eight anti-poverty and development goals with measurable targets to be achieved by the year 2015, succeeded by the 2030 Sustainable Development Goals (SDGs).

Q.176. (Indian Economy & Social Development #13) Correct Response: (A)
Question Reference: Which of the following macroeconomic policy measures is typically adopted by monetary and fiscal authorities to curb high inflatio...
Solution & Rationale: To tame inflation (contractionary policy), central banks hike interest rates (repo rate) to tighten liquidity and credit, while the government reduces public spending and fiscal deficits.

Q.177. (Indian Economy & Social Development #14) Correct Response: (A)
Question Reference: Which of the following statements regarding India's highest civilian award, the Bharat Ratna, is correct?
Solution & Rationale: There is no formal requirement that the recipient must be an Indian citizen. Khan Abdul Ghaffar Khan (1987) and Nelson Mandela (1990) received the Bharat Ratna.

Q.178. (Indian Economy & Social Development #15) Correct Response: (A)
Question Reference: Which of the following rates is known as the key policy interest rate at which the Reserve Bank of India (RBI) lends short-term li...
Solution & Rationale: The Repo Rate (Repurchase Option Rate) is the benchmark interest rate at which the RBI lends money to commercial banks against pledged government collateral.

Q.179. (Indian Economy & Social Development #16) Correct Response: (A)
Question Reference: Which of the following is NOT included while calculating the Gross Domestic Product (GDP) of India?
Solution & Rationale: Transfer payments are unilateral payments made without any corresponding exchange of goods or services in return, and are therefore excluded from GDP calculations.

Q.180. (Indian Economy & Social Development #17) Correct Response: (A)
Question Reference: Which of the following institutions publishes the annual 'World Economic Outlook' (WEO) report?
Solution & Rationale: The World Economic Outlook is a survey published biannually by the International Monetary Fund (IMF) analyzing global economic trends and GDP growth forecasts.

- SPACE FOR ROUGH WORK -

Q.181. (Indian Economy & Social Development #18) Correct Response: (B)
Question Reference: Which one of the following Indian states shares an international land border with three countries (Nepal, Bhutan, and China)?
