COMPREHENSION

Directions (For the 20 items which follow) :

In this Section you have ***Six*** short passages. After each passage, you will find several questions based on the passage. First, read a passage, and then answer the questions based on it. You are required to select your answers based on the contents of the passage and opinion of the author only.

Examples 'I' and 'J' are solved for you.

PASSAGE

In our approach to life, be it pragmatic or otherwise, a basic fact that confronts us squarely and unmistakably is the desire for peace, security and happiness. Different forms of life at different levels of existence make up the teeming denizens of this earth of ours. And, no matter whether they belong to the higher groups such as human beings or to the lower groups such as animals, all beings primarily seek peace, comfort and security. Life is as dear to a mute creature as it is to a man. Even the lowliest insect strives for protection against dangers that threaten its life. Just as each one of us wants to live and not to die, so do all other creatures.

I. The author's main point is that

(a) different forms of life are found on earth

(b) different levels of existence are possible in nature

(c) peace and security are the chief goals of all living beings

(d) even the weakest creature struggles to preserve its life

J. Which one of the following assumptions or steps is essential in developing the author's position ?

(a) All forms of life have a single overriding goal

(b) The will to survive of a creature is identified with a desire for peace

(c) All beings are divided into higher and lower groups

(d) A parallel is drawn between happiness and life and pain and death

Explanation :

I. The idea which represents the author's main point is "peace and security are the chief goals of all living beings", which is response (c). So (c) is the correct answer.

J. The best assumption underlying the passage is "The will to survive of a creature is identified with a desire for peace", which is response (b). So (b) is the correct answer.

PASSAGE I

Ah ! whatever could be said was said. All held him guilty. Even his own mother who claimed to understand him the best. All had betrayed him in his hour of need. Yet, there he was, still with a sparkling hope and knew that the truth must prevail. In the cold, dark and damp cell he never for a moment lost faith in God and goodness and was waiting anxiously for an angel to come, plead non guilty for him and free him of his miseries.

24. Three of the following statements indicate that he had a sparkling hope. Which statement does not ?

(a) He had never lost faith in God

(b) He was sure there was goodness

(c) He could have evidence in his favour

(d) He knew that the truth must prevail

25. Whatever others said about him, he

(a) Betrayed no one

(b) Thought over the problem

(c) Never lost faith in goodness

(d) Raised his voice against injustice

26. In the dark dungeon he always waited for

(a) His mother

(b) The jailer

(c) The verdict freeing him of his miseries

(b) Angel will reveal truth

(c) Truth always wins in the end

(d) We must plead for the truth

PASSAGE II

Once while travelling by the local bus, I got a seat beside a very strange man. He seemed interested in every passenger aboard. He would stare at a person, scribble some odd mathematical notations on his long notebook and then move on to the next. Being quite interested in what he was doing I asked him what all those notations meant and then came the startling reply. He saw a man's face not as a single unit but as thousands of squares put together. He was in fact a statistical expert and a budding artist learning the art of graphics.

28. The man was scribbling down

(a) The figures of co-passengers

(b) The details of thousands of squares put together

(c) Some mathematical formulae and calculations

(d) Some mathematical signs

29. The man caught author's attention because

(b) He was staring at every person in the bus

(c) He would stare at every person and then scribble down some mathematical notation

30. The author found that man's reply quite startling because

(a) A statistical expert cannot be a budding scientist

(b) A budding artist cannot be a statistical expert

(c) Graphics is still a rare art form and he was learning it while travelling in a bus

(d) The fact that "a man's face can be analysed as thousands of squares" was a strange concept.

(b) The author tries to poke his nose in other people's business

(c) The author is interested in mathematical notations

(d) The author wants to talk to fellow passengers in the bus

PASSAGE III

With the inevitable growth of specialization I see the universities facing two great dangers. First, it is very easy to get so involved in the technical details of education that the object of education is lost. And secondly, in an effort to condition a university to the needs of its students and to the needs of the State it may lose its power to make or mould those students into responsible men, capable of thinking for themselves and capable of expressing the results of their thoughts to others.

32. The author calls growth of specialisation 'inevitable'. Which one of the following statements is likely to be the most correct reason for this inevitability ?

(a) Universities give grants only to do specialised work in different disciplines

(b) The professors and researchers in universities are competent only for specialised work

(c) Specialization helps economic growth of the nation

(d) In an age of science and technology specialization becomes necessary

33. Which one of the following statements most correctly suggests the central theme of the passage ?

(a) The aim of education is specialization

(b) The aim of education is to mould the youth to work for the State

(c) The aim of education is to make the youth capable of independent thought and expression

(d) The aim of education is to enable the youth to earn a comfortable living

34. Which one of the following statements most correctly suggests the warning implied in the passage ?

(a) University education should not be concerned with technical details

(b) Universities should not subordinate themselves to the interests of the State

(c) Universities should be concerned only with the needs of students

(d) Universities should not go in for any specialization
